Solomon Muratov

Danbury, CT 06810

solomonmuratov@gmail.com

(516) 362- 6996

Professional Summary

Skilled Software Development Manager with 7 years of experience in managing distributed systems, mentoring junior engineers, and introducing new processes to improve department efficiency. Proficient in.NET 6 Core, Vue.js, Node.js, Python, and AWS, with expertise in cloud technologies and IaaS utilities. Strong background in computer programming, including C#, ASP.NET, and SQL.

Work Experience

Software Development Manager

BizLibrary (Remote)-St. Louis, MO

June 2021 to Present

• Advanced from Software Developer to Lead Developer and now Software Development Manager, leading development of BizLMS, a cloud-hosted SaaS product serving 300,000+ users

• Architected and maintained distributed systems using .NET 6 Core, C# REST API, Vue.js frontend, and serverless applications with Node.js and Python Lambda functions

• Implemented and managed SOC2-compliant deployment processes while leveraging AWS services (Cloud Search, S3, Lambda, Redshift, SQS, API Gateway, Kendra, Personalize, Glue) and IaC tools such as SAM.

• Established comprehensive employee development programs including standardized 1:1s, peer reviews, and mentorship initiatives for junior to senior-level engineers

• Improved departmental efficiency by introducing new processes for resource management, task prioritization, and risk mitigation

• Built strong stakeholder relationships to align development efforts with business objectives and deliver complex projects under tight deadlines

.NET Developer (Hybrid)

PetVet Care Centers-Westport, CT

April 2020 to June 2021

Led development of internal business portal using ASP Web Forms and ASP.NET/AngularJS, while optimizing database performance and delivering executive-level reporting:

• Architected scalable web applications, console applications, and automated SQL processes

• Collaborated with cross-functional teams to gather requirements and implement solutions

• Created and maintained comprehensive financial reports and analytics for executive decision-making

NET Web Developer (On-Site)

The Metro Group Inc.-Long Island City, NY

January 2019 to April 2020

Enhanced and maintained CRM system using C# ASP.NET MVC and AngularJS, focusing on bug resolution and process automation

• Implemented automated workflows to improve system efficiency and reliability

• Developed SSRS financial reports to support data-driven decision making

• Led comprehensive performance optimization initiatives across web applications, SSRS financial reporting suite, month-end reconciliation processes, and SQL query execution, significantly reducing system-wide response times and improving user experience

Computer Programming (On-Site)

Linzer Products Corp. – IT-Danbury, CT

March 2018 to January 2019

• Programming with BASIC on a legacy NoSQL DB and building reports in that same environment. In addition, working as help desk which entailed setting up printers and assisting users using Active Directory

Education

Management Information Systems (Bachelor's degree)

Farmingdale State College-Farmingdale, NY

August 2014 to May 2017

(Math & Science) (Associates of Arts and Sciences)

Nassau Community College-Uniondale, NY

August 2011 to May 2014
